

RETROFIT PROGRAM

**SAVE ENERGY.
TRANSFORM YOUR BUSINESS.**

BIG CHANGES HAPPEN WHEN YOU START WITH SAVING ENERGY

Energy efficiency is a smart and simple way to unlock the potential of your business. With energy-efficient upgrades, you can find cost savings to reinvest in growing your business. Plus, you can improve productivity, employee comfort and your customer experience along the way — keeping you competitive.

Get started with the Save on Energy Retrofit program today.

WHAT IS THE RETROFIT PROGRAM?

The Save on Energy Retrofit program is designed to help Ontario businesses save energy, reduce costs and increase productivity. This province-wide initiative offers financial incentives for equipment upgrades that reduce facility electricity consumption.

WHAT'S NEW IN 2021?

Retrofit program participants can expect:

- Three streams: lighting, HVAC, and manufacturing and other equipment
- More predefined energy-efficiency measures to choose from
- A simpler application process with faster pre-approvals
- Quicker incentive payment

WHO CAN PARTICIPATE?

Small, medium and large businesses in a range of industry sectors across Ontario can apply to the Retrofit program, such as:

COMMERCIAL

Includes offices, retail and grocery stores, restaurants, hotels and warehouses

INDUSTRIAL

Includes food and beverage, automotive, plastics, steel, mining, paper and chemical industries

INSTITUTIONAL

Includes hospitals, universities and municipal facilities

MULTI-FAMILY RESIDENTIAL

Includes apartments (including social housing) and condominiums

AGRICULTURAL

Includes dairy, swine and poultry farms, greenhouses and nurseries

WHAT KIND OF UPGRADES QUALIFY?

Projects that qualify for the Retrofit program provide measurable energy savings. These upgrades range from lighting, HVAC equipment and controls to variable frequency drives and more. Your project must be worth a minimum incentive of \$500 and must be pre-approved to be eligible.

Visit SaveOnEnergy.ca/Retrofit for a full list of eligible projects.

WHAT ARE THE KEY BENEFITS?

Energy-saving upgrades provide a number of benefits to your business, from boosting operational efficiency to keeping employees and customers more comfortable. Here are some of the benefits to participating:

Reduced electricity bills

Immediate operational and maintenance savings

Up-to-date, efficient equipment and technology

Greater employee comfort and productivity

HOW DOES IT WORK?

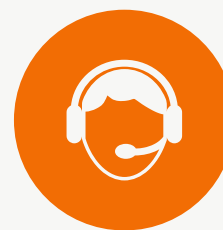

The Retrofit program offers incentives for a wide range of energy-efficient equipment. Here's what to know before you apply:

Incentives levels are predefined and based on the amount of energy or demand savings of the new equipment.

Apply online where you will find out the incentive amount you are eligible for.

For application support, visit our website or contact a Save on Energy representative.
